KEYELEMENTS

Key Elements are based in North Essex in the UK. [We make safe lock picks to order,](#) each pick is hand made, assembled, finished and tested on the lock that it is meant for.

The pictures below shows a 2 in 1 pick also known as a Hobbs picks or telescopic pick.

These picks have a clicker index on the handle that allow the user to locate the lever that they want to test.

The user will need to have an understanding of how to use these types of lock picks to be able to pick a lock open. They do not come with instructions on there use.

We can offer training on our tools if required.

kelocks1@gmail.com

Breaking your pick

As with any tool you will need to practice to get the benefit of it. Much like learning to play a musical instrument you will need to learn the basics and put in the practice to get an opening and become proficient with these types of picks.

These are not Magic wands !

These are high precision tools which must be used in the correct way otherwise you can damage them

*If you manage to break one of our picks and need it repaired please contact us at **kelocks1@gmail.com***

Training

At Key Elements Safe Crackers we specialise in opening locked safes, vaults & strong rooms. We have done this for over 30 years within the UK and across the world. In doing this we use safe picks in real situations, so are well versed in there use.

We only offer safe lock pick training on our own tools and can cater this to suit your knowledge and experience.

Broken a Key Elements 2in1 pick

At Key Elements we hand make each safe lock pick so if you break one of our 2in1s we can repair it. So send it back. (If outside the UK and posting back is too expensive we can make a replacement tube in some cases.

If you need a new lever leg. Tell us what pick it is and how long (Arrow) the working part is and we can build a new Lever leg for you.

Replacement Safe Locks / Parts

We have an extensive stock of used / refurbished safe locks with or with out keys

Just ask if your looking for a Part

Making One off 2in1 Picks and Spare Parts for Safes and Vaults

Every now and then we make a one off 2in1 pick for a customer or a part for a safe. (We also make keys to locks!)

Some real safes picked open with our 2in1 picks

Key Elements Safe Opening Service

At Key Elements we have opened safes and vaults for 30 plus years. We mainly now only open medium to high grade units due to lack of time making the tools.

We are based in North Essex in the UK.

Our safe opening site is www.kelocks.co.uk / www.kelocks.net

Some locks we pick / decode open but don't sell tools for. Some include but not limited too

- * Mauer Primus C -70011**
- * Mauer 70021**
- * Mauer Varos 70040**
- * LaGard 2200**
- * Rosengrens RKL**
- * Fichet Monopole**
- * Fichet M2i, M2b & M3 Series**
- * Various Chubb's**
- * Various Tann's**
- * Ross**
- * FAS**
- * and many more !!!**

Although we are better known for lock picking we also open manual combination, digital locks and safe with faults including drill methods.

Key Reader Cards

Pocket Cards to use to read popular locks

***Mauer 71111 / 70079**
